SUMMARY

Computer Science Engineering student and backend-focused developer experienced in building REST APIs, web applications, automation workflows, and data-driven systems. Strong experience with Node.js, Express.js, PostgreSQL, MongoDB, React, and third-party API integrations, with additional experience in Go backend development and workflow automation.

TECHNICAL SKILLS

Languages:	JavaScript, TypeScript, Go, SQL, HTML, CSS
Backend:	Node.js, Express.js, REST APIs, JWT, Socket.IO, Middleware, API Integration
Databases:	PostgreSQL, MongoDB, Prisma, Redis
Frontend:	React, Next.js, React Native, Vite, Zustand
Automation:	n8n, Puppeteer, Cheerio, Web Scraping, AI/API Integrations
DevOps & Tools:	Git, GitHub, Docker, Nginx, Vercel, Render, Railway, AWS S3, Supabase

EXPERIENCE

Earthing Aid Tech — Developer | 2025 – Present

- Developed web applications for educational institutions using the MERN stack, SQL, and Supabase.
- Designed backend business logic and REST APIs for application features and data workflows.
- Implemented middleware, validation, error handling, and API integrations.
- Built n8n automation workflows integrating external APIs and services.
- Developed AI calling-agent workflows for receptionist automation for small and medium-sized businesses.

PROJECTS

QuickPortal — Student Portal Automation

Node.js · Express.js · MongoDB · Puppeteer · React

- Built an API-driven application to automate authentication and data retrieval from a college student portal.
- Used Puppeteer to automate browser interactions and handle frequent session logouts.
- Developed a React interface for accessing retrieved student information.

Celeb-Score — Google Trends API

Node.js · Express.js · MongoDB · Google Trends API

- Built a REST API that generates popularity scores for public figures using Google Trends data.
- Designed backend logic for collecting, processing, and storing popularity data.

CertiTrack — Certificate Verification Platform

React · Node.js · Express.js · MongoDB · AWS S3 · Tesseract.js

- Developed a certificate verification system using QR-based verification and OCR.
- Implemented automated certificate data extraction using Tesseract.js.
- Designed secure certificate storage and verification workflows.

EDUCATION

BMS Institute of Technology, Karnataka, India

B.E. — Computer Science Engineering | 2025 – 2029
